

AuraLast® Wood protects against wood rot for as long as you own and occupy your home. Guaranteed.

Guaranteed Protection Against Wood Rot

JELD-WEN® wood windows and patio doors made with exclusive pine AuraLast Wood are guaranteed not to rot for as long as you own and occupy your home. Wood components made from AuraLast Wood maintain their structural integrity even in the toughest climates. Visit jeld-wen.com to view the full warranty.*

Surface-to-Core Protection

Because of our vacuum/pressure process, AuraLast Wood provides virtually 100% penetration of the protective ingredients. Other manufacturers use submersion/dip-treatment methods, which only protect the outer surface of the wood.

Working With AuraLast Wood is Easy

AuraLast offers the strength and beauty of real wood because it is real wood, not a composite. AuraLast Wood is colorless, stainable and odorless.

Virtually 100% Surface-to-Core Protection

AuraLast is Safe

AuraLast Wood is made by using a water-based solution to deliver the effective ingredients to the core of the wood. Traditional dip-treatments use a solvent-based chemical bath. During production our AuraLast process releases 96% fewer volatile organic compounds than the traditional dip-treatment method.

Traditional treatments only protect the outer surface

A JELD-WEN Exclusive

Only JELD-WEN makes window and door products with natural pine AuraLast Wood that are built to last.

Protects Against Water Saturation

AuraLast Wood offers superior resistance to water saturation, which protects against swelling that causes windows and doors to stick.

Protects Against Termites

Harmful termites will eat through unprotected wood—not so with AuraLast Wood.

Visit jeld-wen.com/auralast for more information

***AuraLast Lifetime Limited Warranty Coverage for Wood Decay and Termite Damage**

JELD-WEN products made from pine AuraLast Wood will not rot.

The JELD-WEN® website is your ultimate resource for learning about our reliable windows and doors. It has all the product information and design advice you need. Visit us at jeld-wen.com today.

THE JELD-WEN PROMISE

JELD-WEN products create lasting value for your home. We are so confident that you will be pleased with our W-2500 Clad-Wood Windows, that each one carries our industry-leading warranty. Here are just some of the highlights of our warranty...

The Window & Patio Door Limited Warranty Includes:

- » Lifetime limited warranty on AuraLast® Wood; protects against wood rot for as long as you own and occupy your home
- » 20-year coverage against defects in material and workmanship for most product components (such as insulating glass, metal and wood components, and hardware)
- » 20-year coverage on Kynar® clad finish; 10-year coverage on polyester clad finishes
- » Skilled labor coverage for warranty repairs for 2 years
- » Coverage is transferable for 10 years

NOTE: The above information is a summary of key provisions of the **JELD-WEN Window & Patio Door Limited Warranty** effective February 1, 2014. For a complete copy of the current warranty, see your sales associate or refer to www.jeld-wen.com.

UltraVue® Screen

View through optional UltraVue insect screen

* These images are for illustration purposes only. Insect screens are intended to allow air and light in, while keeping insects out. They are not intended to stop children from falling through an open door or window. For safety screens and other security devices, contact your local building supply retailer.

PERFORMANCE GLASS OPTIONS

Low-E, LoE³-366 and Low-E EC Insulating Glass

High-performance Low-E insulating glass comes standard to help lower energy costs, allows homes to stay cooler in the summer and warmer in the winter, prevents fading of interior furnishings, and reduces condensation. It also delivers greater visible light transmittance than tinted glass. We also offer optional LoE³-366, which provides even more protection against heat loss and fading, as well as greater energy savings.

Most windows and patio doors with Low-E glass are ENERGY STAR® qualified. ENERGY STAR products help Americans save energy, save money, and reduce their carbon footprints. ENERGY STAR criteria for windows are based on the U-factor and SHGC combinations that provide significant energy efficiency for a given climate zone. Just tell your JELD-WEN® dealer you want JELD-WEN windows that are ENERGY STAR qualified for your climate zone.

For even more protection, choose Low-E EC for an "extra coating" that improves the thermal performance of our windows and is the optimal solution for meeting ENERGY STAR criteria in certain regions of the country.

For more information, visit www.jeld-wen.com/energyefficiency.

In cold weather, Low-E glass reduces the amount of heat lost by reflecting it back inside.
In warm weather, Low-E glass reflects the sun's energy and prevents it from entering the home.

ENERGY STAR®

The W-2500 line meets ENERGY STAR criteria in all four climate zones in the United States. ENERGY STAR criteria are achieved in North, North Central, and South Central climate zones with the standard glass package of LoE²-270 with argon, and in the Southern zone when grilles are used. Without grilles, Southern zone ENERGY STAR criteria are achieved with LoE³-366 and argon.

Tax Credits, Rebates and Incentives

The JELD-WEN website is a great source of information for Tax Credits, Rebates and Incentives on energy efficient products. Visit www.jeld-wen.com for more information. Because the windows in our W-2500 window line are so energy efficient, replacing old windows can mean money in your pocket.
